

**Job / Position;** Industrial Vacuumation Operative

**Employer;** Intech Environmental Limited

**Location;** Company base Scunthorpe with work around the UK

**Business /Organization;** Our foundations were laid in 1995 by working class industrial cleaners who had vast experience within the coal fired power generation sector.

Intech Environmental Ltd over the past 20 years has developed a depth of understanding and experience that differentiates us from our competitors, today we service customers across a broad base of industry;

- Steel Mills
- Cement production Plants
- Tank storage farms
- Coal fired power stations
- Energy from waste recovery plants
- Chemical

Despite market 'head winds' the customer's bespoke needs remain at the heart of our service scopes, highly customer focused we deliver our promise on time and in full. Our service portfolio consists of;

- Confined space rescue cover
- Confined space management and safe system of work formulation
- High pressure water jetting
- Automated economiser and heat exchanger cleaning
- Boiler cleaning
- Industrial cleaning
- Vacuum recovery

Today, we have can deploy a large and varied fleet based on 20 years customer service experience, to accommodate and overcome any industrial cleaning challenges our customers encounter.

Our future, by transitioning from a 'service provider' to a 'solutions partner' we aim to continue to grow in a sustainable responsible manner. Structured strategic investment in plant, people and the environment is part of our strategy, supported by our core values which 'DRIVE' our daily behavior's to become part of our DNA;

**D – Dedication;** to deliver our promise on time and in full

**R – Respect;** Embracing openness, trust, teamwork, diversity and relationships that are mutually beneficial for our colleagues, our customers & our culture.

**I – Integrity;** ensure the integrity of our most important assets, Our People, is never compromised

**V – Value Creation;** creating value for our customer

**E – Excellence;** in everything we do

*“Large enough to deliver, Small enough to care”*
